# INTRODUCING

## A performance driven catamaran

The Leopard 39 exudes Leopard Catamarans' commitment to innovation and performance. Building on the success of the award-winning Leopard 38, the Leopard 39 features the same hulls and deck that made the Leopard 38 so popular.

New modifications to the Leopard 39 include a new hard top and hard helm station bimini that builds off of the popular Leopard 46 design.

True to Leopard Catamarans' reputation for listening to customer feedback and constantly looking to improve design and construction practices, the builders and designers created the Leopard 39 with updates that significantly improved the aesthetics and functionality of the model.

With the opportunity to choose your own layout, and an extensive option list which offers a wide variety of cruising gear and amenities, the Leopard 39 is prepared to suit your family's cruising and live aboard needs.

With a proven track record of offshore capability, ease of handling and great performance, the Leopard 39 is, and will remain, the benchmark of excellence for the modern cruising catamaran.

# CRAFTSMANSHIP

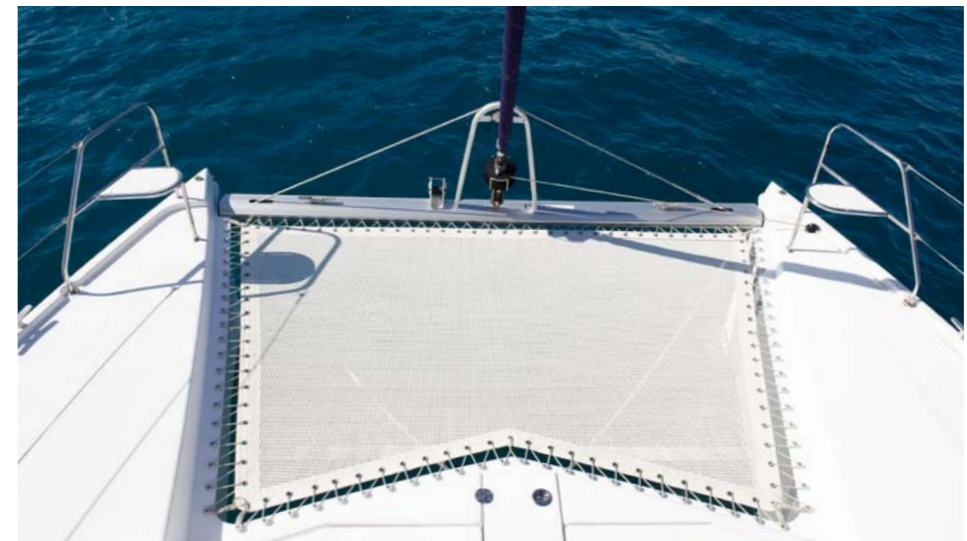

Boat building focused on innovation and quality

Built by world renowned Robertson & Caine, the performance driven Leopard 39 brings with it quality construction and sound craftsmanship.

The raised helm station of the Leopard 39 allows all maneuvers to be handled from the safety of the helm seat, with the mainsail and jib sheets brought aft to primary winches for easy single-handed sailing. The helm station, covered by a hardtop bimini, also features access from the cockpit and weather deck while offering protection and excellent visibility lending to the ease of boat handling.

The ample cockpit space with outside dining area is protected by a continuous hard-top cover, providing a stable platform for access to the working rigging. To add to this, the

stainless steel davit features an electric winch for ease of storing and deploying a dinghy while creating additional space on the transom and saving valuable weight astern.

# INTERIOR

## Everything needed for a voyage at sea

The Leopard 39 is available in 3 or 4 cabin layouts. The 3 cabin layout features two guest cabins with a shared central head and stall shower in the port hull. The starboard hull is dedicated to the stylish owner's suite with a spacious master cabin and private head with a large stall shower.

Well-ventilated with opening hatches and ports, the Leopard 39 cabins provide a comfortable space to relax, day or night. Adjustable reading lights, full size hanging lockers and shelving add to the practicality and comfort of the Leopard 39.

The spacious owner's head and stall shower are located forward in the starboard hull. Amenities include washbasin with mixer tap, shower with adjustable shower head, corian vanity unit and marine toilet.

Located aft, the master stateroom features a large double berth, book shelf, adjustable reading lights, hanging locker, plentiful shelving for clothing and personal items, as well as additional storage under the bunk. Two opening hatches and two opening ports provide excellent ventilation. The master suite incorporates a separate study area with dedicated desk, overhead lighting and an optional swing seat.

# COMFORT

Luxury and space with a contemporary design

The Leopard 39's interior design incorporates a spacious saloon area with a wide U-shaped settee and an aft-facing galley with plenty of room to circulate.

Storing provisions for a long voyage is simple on the Leopard 39. Standard appliances include a large refrigerator-freezer system to starboard, with well insulated and stylish drawer opening compartments and stainless steel faces and handles.

The electrical panel, VHF and sound system controls are conveniently located just inside the companionway doors to starboard for ease of access from the saloon, cockpit and helm station.

The ergonomic galley layout features soft curves and heat resistant corian countertops. The galley also includes large panoramic windows with two forward opening hatches.

# INNOVATION

## The Leopard Leap

The performance driven Leopard 39 sets the bar for world class, blue water cruising catamarans. This catamaran excels in all areas.

Its unique design, indoor/outdoor living space and innovative features combine to create a catamaran that sets the standard for quality catamarans.

# SPECIFICATIONS
